French Language Services

Our Vision

We envision mentally healthy people in a healthy society.

Our Mission

Our Mental Health Hub promotes and enhances the mental, emotional, and physical well-being of our community. We do this through education, collaboration, advocacy, and the provision of a broad range of direct services that meet our community's needs

French Language Service Identification

The Central East Local Health Integration Network (CELHIN) has officially approved CMHA Durham as an Identified French Language Services organization. Identification is defined as the selection of service providers, by local Health Integration Networks, for the purposes of planning and delivering quality services in French.

Being an Identified Organization: Significance

The recognition highlights CMHA Durham's dedication and commitment to supporting local Francophone populations, demonstrated through enhanced community engagement and outreach, and improved access to quality French language services. The objective is for the Francophone population to have access to a continuum of health services in French, through organization such as CMHA Durham.

As a result of this anticipated news, a carefully devised plan will outline the details of how CMHA Durham will, over time, incorporate the requirements outlined as a newly identified organization.

A special thank you to Entité 4, who strongly recommended and promoted the organization to the CELHIN, working with our senior management team, and finally, our FLS specialist for making this goal a reality. Without your efforts, there would be no identification!
